

Computer Tutoring Available!

Do you find yourself needing help with computers?

With so many agencies becoming “green” and going “paperless,” you might find yourself needing to become more familiar with computers.

The **Oak Lawn Senior Center** will be offering basic computer skills tutoring to help with the following:

- Setting up and using email
- Navigating online agencies (e.g. finances, utilities)
- Using Microsoft Word and other Microsoft programs

If interested, call the Senior Center (708-499-0240) to set up private or small group tutoring. Tutoring will be scheduled based on individual availability.

Oak Lawn Senior Center | 5220 W. 105th Street
