

The decision has been made to close Village Hall for any non-emergency services beginning March 18th, 2020 continuing until March 30th, 2020. We will re-evaluate the situation as this date grows closer and update residents and all those affected. The Clerk's Office, Inspection Services, Finance, Police Records Division (not the Police front desk), Engineering and the permit/licensing divisions will have limited or no staffing. We ask that you call before you come to Village Hall to ascertain if the Department necessary for you to complete your business has not been affected by the closure. If making a water payment, place the remittance slip and check in an envelope in the payment nighttime dropbox located at the Finance window. As Covid-19 moves forward, we must continue to protect our staff and residents and do our very best to limit the spread of the Covid-19 virus. All Police, Fire and Public Works departments will continue to serve the Village of Oak Lawn providing their critical services. We appreciate your understanding as we go through this difficult and uncertain time.
